TOUR NOTES

Located in the 'land of little sticks', 60 miles south of the treeline and the Nunavut border, this incredible area is only accessible by airplane. A unique mix of diverse habitat and water, it is Manitoba's prime location for the amazing sand eskers, as six eskers transverse this area including the historic Robertson esker. You might also sight Arctic fox, Arctic hare, ptarmigan and snowy owls and sometimes even the odd polar bear that hasn't gone out onto the tundra for the summer.

Gangler's North Seal River Lodge, Manitoba's only Orvis endorsed lodge, is based on Egenolf Lake, a main juncture for the North Seal. This is the epicenter of Gangler's exclusive 5 million-acre concession with over 12 rivers and 100 lakes. The lodge offers a multitude of experiences to choose from. Enjoy a day of incredible fishing including an amazing Canadian shore lunch, learn to fly-fish, kayak and canoe, hike, take an amazing ATV ride on an esker, amazing photo opportunities, even ride a mountain bike on the eskers. You will see wildlife with black bears, moose, wolves, wolverines, eagles, loons and more. Enjoy our bear and wolf viewing areas. Take a floatplane ride on a classic De Havilland Beaver. Walk in the footsteps of ancient explorers, learn about local Cree and Dene cultures and history and see historic archeological sites. Other exciting optional side trips are available. Walk where few men have walked

before. This truly unique destination offers amazing experiences you will cherish forever.

The North Seal is located at the very top of the transitional Sub-boreal forest. It is beautiful country easy to hike and explore, almost like manicured Parkland. Explore our vast territory and see all the wildlife this area is teeming with such as bear, moose, wolf, otter, eagle, osprey and more. Whether you desire beautiful vistas and scenic panoramas, or our resident North Seal wildlife, you will have endless opportunities for World-class photography. Feel free to relax and immerse yourself in the beauty of the North Seal with a kayak or canoe trip.

Comfortable, Clean, Civilized Accommodation in a Beautiful, Serene Setting.

One extremely important intangible in a wilderness lodge is size. Many Canadian lodges hold 40,50, even 60 people. As nice as they may be, it just doesn't make sense to us to fly to a remote camp just to settle in with another horde of people. That's what guests are trying to leave behind. If leaving the dock in the morning resembles rush hour in Chicago, what's the point?

Gangler's Lodge has made camp size a priority and their philosophy is to keep their camps small. By limiting the main lodge to only 24 guests each guest is ensured the personalized attention he or she deserves. Each camp is designed to be unique in layout and flavor and all accommodations are 5 star and recognized as the finest in the North.

The North Seal in itself is an exquisite experience. The 'Land of Little Sticks,' it has a beauty that is unique. We are now offering at the main lodge an amazing assortment of experiences to add to your stay. Canoeing, kayaking, esker tours, bear and wolf viewing, photography, birding, mountain biking, nature tours, your choices are many. Whether you are at Ganglers on a fishing trip or an adventure experience, enjoy the full flavor of the unique North Seal region in a trip we will customize to your wishes.

Yes, Churchill is famous for its amazing Polar Bears, but the Belugas are equally fascinating! Experience some of the world's best whale watching as you experience the magical summer colours of the tundra. This summer tour to the north will introduce you to the flora, fauna and history of one of Manitoba's most unique towns, still very much the "frontier". Highlights include thousands of Beluga Whales at the mouth of the Churchill River and the opportunity to view them from up close, go kayaking or even snorkel with them. Tours are locally guided, otherwise your time in Churchill is independent.

Gangler's activity tours:

Mountain Biking

The North Seal River region of Northern Manitoba has long been heralded as one of the last remaining pristine areas in North America. Located almost 200 miles from the closest road, this area is accessible only by airplane, and primarily by floatplane. Designated a protected Canadian Heritage River system, it is a confluence of 12 other rivers and drainages merging into the North Seal as it winds its way to Hudson Bay. It is a unique, beautiful area and its uniqueness is a natural to enjoy by mountain bike.

The key feature to the NSR area is the sand eskers. Sand eskers are unique, geological formations formed by run-off from the rivers under glaciers that long-ago dominated this area. Rising 200-300' in the air and running continuously for tens of miles, they are a natural travel route for the moose, bear, wolves, and other animals that call this area home. This terrain is ideal for exploring by mountain bike. The surrounding area is the last vestiges of the Subboreal transitional forest. Resembling a fine parkland manicured only by Nature's hand, it is perfect for offshoot explorations and side routes.

To access this remote frontier requires a 5 star outfitter, ensuring exploration at its finest level with professional expertise. Ganglers, renowned with over 30+ years of outfitting in the remotest reaches of Northern Canada, is the ONLY outfitter qualified for this challenge. Ganglers is offering two adventures, one for the intermediate traveller and another for the more adventurous. World-class mountain biking, mixed with incredible fishing, scenery and wildlife viewing. A once-in-a-lifetime experience. This will be an adventure you will always cherish!
